State of TN v. Senior Trust

Dear Chancellor,

I write to provide you and the other parties the official report.

Based on conversations with leaders from every county, 281 organizations were invited to apply for these Serving Tennessee's Seniors grants. The decisions for which we were responsible were made and grants -- many of which were for smaller amounts than requested -- were disbursed by December 28, 2016. Through agencies that serve multiple counties, it is highly likely that these grants will, in fact, touch every single county in Tennessee.

Of those that applied, one was disqualified because of a relationship with NHC personnel, another withdrew because of personnel changes and a belief that they could not meet the six month deadline, 35 started to apply but did not complete the process, and 11 of those who applied did not receive funding.

Attached are statistics. But the bottom line is that thanks to you, Chancellor, the Attorney General's office, and so many others, this was indeed a VERY MERRY CHRISTMAS for the 121 nonprofits and government agencies which benefited and the start to a six-month "sleigh ride" toward a vastly increased capacity to help Tennessee's Seniors!

Each organization which applied was asked to fill out a request and a detailed Work Plan including a set of outcomes to be accomplished within the six month period. The amounts and the purpose of each grant will be made available on a new website we are creating by mid-January. It is our hope that the work of the consortium will be added to this website so that at the end we will have a fully accountable and transparent record of grants and outcomes as a result of these settlements.
